Source Data for the Official Soil Survey

Rutherford County - General

The traditional final product of first generation soil survey mapping has been the soil survey publication. Each publication included soil map unit descriptions, series descriptions, tables of information (attributes), and maps. One copy of this publication is retained at the USDA Service Center, NRCS Field Office, and designated as the "Official Copy". This official copy was established to maintain the most current soil information for a survey area.

The Rutherford County soil survey is not yet published, but remains the official source of soil maps. The soil survey manuscript is available from this site in Adobe PDF format. The soil maps have been digitized and are available at no charge from this web site: http://www.ftw.nrcs.usda.gov/ssur_data.html

The official source of soil data is the NASIS database. The NASIS data is available from this site in a Microsoft Access data template. The file name is the county FIPS code with a "zip" extension, nc161.zip. It may be downloaded and unzipped. The template, nc161.mdb, requires Microsoft Access 97 or newer. The data on this site is the most current available.

Copies of the interim maps are available from:

RUTHERFORDTON FIELD OFFICE

(TELEPHONE: (828) 287-4220, Ext. 3 **FAX:** (828) 287-8081

Mailing Address: 121 Laurel Drive, Rutherfordton, NC 28139-2952

Rutherford County manuscript is available as an interim product in Adobe PDF from this web site. For other information, contact the NRCS field office or the soil survey office at:

WAYNESVILLE SOIL SURVEY OFFICE

TELEPHONE: (828) 456-3557 (Ext. 5) **FAX:** (828) 452-7031

Mailing Address: 589 Raccoon Road, Suite 246, Waynesville, NC 28786-3217
